HEAR YOUR VOICE
THROUGH THE LOUDSPEAKER
AS YOU SING OR TALK
INTO THE MICROPHONE
WHEN THE RADIO
IS TURNED ON

EYES ARE SYNCHRONIZED
TO LIGHT UP AND PULSATE
TO THE SOUND OF THE RADIO

STARROID ROBOT

INSTRUCTIONS

INTRODUCTION

Your STAR COMMAND RADIO is manufactured with a powerful solid state circuit receiving the standard AM broadcast band, 525-1620KHz. Its conceptive design not only features a flashing LED as a space alert light, but its distinctive design makes it the perfect practical item for every child's room. Any child can follow the manual to operate the set easily.

PREPARATION FOR USE

This radio operates from a standard 9 volt radio battery, 006P or equivalent.

1. Remove the battery cover.
2. Snap in a standard 9V battery.
3. Replace the battery cover.

Note: Never leave weak or dead battery in your unit. It may leak, damaging the unit. If you are not going to use your unit for a period of time, remove the battery.

OPERATION

1. Turn the volume control knob to switch on the set.
2. Select your desired station by turning the tuning knob.
3. Adjust the volume control to your preferred listening level.
4. To switch off the radio, turn the volume control knob to the opposite direction until you hear a 'click'.

CARE AND MAINTENANCE

With proper care, the radio will provide endless hours of enjoyment. Clean the cabinet with a soft cloth. Never use strong cleaning agents as they could damage the finish. Avoid storing the radio in excessively hot, cold or damp places. Do not attempt to disassemble the cabinet. For service, always refer to a qualified serviceman.
